Notes:

Did you know... A plan has been devised to help Ontarians recycle their electronic wastes. The first phase of the program, expected by February 2008, will include measures to recycle those items with the lowest diversion rates, including desktop and notebook computers, monitors, desktop printers, and televisions. Phase two will address telephones, audio players and recorders, radios, speakers, and cameras. Waste Diversion Ontario has reported that of the 1.5 million computers and computer accessories discarded in 2004, only about 2% were diverted. Only 1% of televisions and audio equipment, and 2% of telecom equipment were diverted in 2004. The plan aims at working in partnership with retailers, municipalities, and other key stakeholders within Ontario.
