## Student Project Fund - Application

St. Paul's University College

### Rationale

St. Paul's University College is sometimes approached by students seeking financial support for various student projects. In order to be transparent in our decision-making process we use our mission, vision, and values ([www.stpauls.uwaterloo.ca](http://www.stpauls.uwaterloo.ca)) to ensure an equitable approach for granting financial support. St. Paul's is a not-for-profit organization and has limited funds to support projects which follow our priorities, mission and values.

### Guidelines

The Student Project Fund (SPF) is open to all undergrad and graduate students who are registered at uWaterloo and are academically in good standing. St. Paul's reserves the right to cancel the SPF at any time.

Students must fill out the "Student Project Fund - Application" in its entirety and submit to St. Paul's Student & Guest Services by no later than the second Friday of each term. You will be contacted by St. Paul's within two weeks with a decision on whether the request has been accepted or denied. Applicants are welcome to submit supporting documents along with the completed application.

### Background Information (Please submit a separate document addressing these 7 questions)

1. What organization or group will you be representing? Please list the organization's website and provide background information on the group, including purpose, age, size, activities and other relevant facts.
2. What is your role with this organization? How long have you been part of the organization?
3. What amount of funds are you requesting and how are the funds you are requesting being allocated? Please describe in detail. What other sources of funds do you have?
4. What are the proposed dates or timeframe for the project or event?
5. Which area(s) does the project focus on? Please check  
 Humanitarian/Emergency Relief  
 Aboriginal Education  
 Social Justice  
 Sustainable Development  
 Japan-Canada relations  
 Religious Studies
6. Please describe in detail how the project is connected to the area(s) of focus identified in question 5.
7. How will you measure the success of the project?
